

BIM-SPEED INFORMED CONSENT STATEMENT

Thank you for being a part of our Community of Practice. The BIM SPEED project will use the data that you provide to develop a more efficient and thorough understanding of BIM processes within renovation practices. By agreeing to this, you are indicating that you are 18 years old or older and that you are contributing voluntarily to this project. There are no obvious physical, legal or economic risks associated with participating in this study. Your participation is voluntary, and you are free to discontinue your participation at any time. The information you provide will be stored securely by DEMO consultants and this information will be anonymised before being fully integrated into BIM SPEED project developments. No personally identifiable information will be reported in any research product or renovation reports. More information on the project and its direct results are available on our project website.

The BIM SPEED Project believes privacy and data security and confidentiality to be very important. If you have any privacy and data security related concerns, please first contact our project data security manager, Jason Pridmore (pridmore@eshcc.eur.nl) at Erasmus University. Further support is available from the Erasmus University and project Data Protection Officer, Marlon Domingus (dpo@eur.nl). By clicking "I agree to the informed consent statement" you are indicating that you are 18 years of age or older, that you are participating voluntarily and that you agree to allow BIM SPEED to use your data for analysis within this project.
